Checking [train running status live](#) information is beneficial for all whether the passengers are on board or they have yet to board the train. The passengers, who are already on the train, can use the live train enquiry to know if the train would reach the destination on time or not, and then they can make the arrangements accordingly.

The passengers who have to board the train will like to use this facility to get to know at what time the train would arrive at the respective station in advance. [Check live train status](#) to help them to reach the station on time so that they neither miss their train nor have to wait for a long period in case the train gets delayed.
