This versatile charging station features a Type 2 socket and supports 3-phase power with a 32A current, providing efficient and rapid charging for electric vehicles. Compatible with the OCPP 1.6 protocol, it ensures seamless integration with various charging networks. Designed with flexibility in mind, the station can be wall-mounted or installed on a floor stand, adapting to different environments. With an IP65 protection rating, it is built to endure harsh weather conditions, making it suitable for both indoor and outdoor use. Delivering 22kW of power, this charging station is a reliable and high-performance solution for all your EV charging needs.
