As a leading manufacturer of floor-mounted DC EV chargers, we provide high-performance charging solutions tailored to meet the demands of modern electric vehicles. Our chargers deliver an impressive 120kW of output power and 200A of output current, ensuring fast and efficient charging. Compliant with the OCPP1.6 interface standard, our chargers integrate seamlessly with contemporary EV charging networks. With a versatile output voltage range of 150-1000VDC and an input voltage of 380V±10%, they are designed to accommodate a wide variety of electric vehicles. Engineered for reliability and durability, our chargers offer dependable performance, making them the ideal choice for electric vehicle operators in need of robust and efficient charging solutions.
