As a top manufacturer of electric car DC EV chargers in China, we specialize in providing high-performance solutions with a 120kW output power. Our chargers adhere to the OCPP1.6 interface standard, ensuring seamless integration with modern EV charging networks. They are designed to deliver 200A and offer an output voltage range of 150-1000VDC, making them suitable for fast and reliable charging across a variety of electric vehicles. With an IP55 rating, our chargers are built to withstand challenging environmental conditions. Committed to innovation and quality, our chargers offer efficient and dependable charging, making them the ideal choice for electric vehicle owners and operators.
