China-based API 608 Floating [Ball Valve](#) Manufacturer, Yaa, specializes in producing high-performance API 608 Floating Ball Valves. The featured model is made from ASTM A105N material, known for its excellent mechanical properties and durability, making it ideal for industrial applications.

This floating ball valve has a 1-inch size and a pressure rating of 300LB, providing reliable operation under medium-pressure conditions. It is equipped with raised face (RF) ends, ensuring a secure and leak-proof connection. The valve is hand-wheel operated, allowing for easy manual control and precise flow regulation.

Compliant with API 608 standards, this floating ball valve is designed for efficient performance and durability in industries such as oil and gas, petrochemicals, and water treatment. Its robust construction and reliable sealing capabilities make it an excellent choice for handling various fluids and gases. Gotta know about [Google SEO](#).
