### Other Details:

#### What changes in corporate training does COVID-19 accelerate?

We usually talk about the educational advantages that e-Learning training brings (e.g., online learning, blended learning, etc.), but we cannot forget its societal benefits, considering its use during the current COVID-19 pandemic.

The Virus that accelerated changes in the training system. The spread of COVID-19 has led to the closure of traditional in person or face to face training all over the world. Such closure accelerated the development of the online learning environments within those organization so that learning would not be disrupted.

### Code and Pixels and expertise in LMS

“Samarthya” is the online learning portal that we designed and delivered along with National Informatics

---

Center (NIC) team and National Institute of rural Development (NIRD) and launched successfully as a digital India Initiative in 2015.

“Samathya” LMS has registered more than one lakh users and had 5000 + concurrent users. SAMARTHYA is a technological development under DIGITAL INDIA initiative

Almost lakhs of NREGA Technical and field assistants had registered and underwent training and certification program.

After Successful execution of the project SAMARTHYA, we have initiated the development of Learning Management system as a product. We have formed a panel of LMS experts and decided to use Moodle as a base framework for Learning Management system.

In 2017, Government of Andhra Pradesh and GIZ have initiated development of German Development Corporation, (Deutsche Gesellschaaftfur internationale Zusammenarbeit) Development of e-Learning modules and learning platform.

We have also served many small and larger corporates (Visit clients section) and addressed their learning and training needs successfully.

### **Ready to deploy & Quick to implement:**

The system can be deployed faster and with a fewer implementation services than almost any other learning system in the market, giving you lower overall cost.

Our software is ready and can be deployed in your server on the same day

We can deploy in your private server if you have AWS server or Google Cloud. If you don't have account in AWS, then we will create an account for you under your organization name and deploy software and database.

Branding and UI and UX will be customized to match your company corporate theme

2 days training will be provided on Administrator/instructor and student's functionality and also creating and assigning and enrolling trainees, taking various reports etc.

### **Go live in 5 days**

Use your existing training materials now, in due course of time, develop custom e-Learning animated courses.

You launch your Learning management system maximum in 5 working days.

---

## A perfect fit for any type of organization

Our learning management software system is flexible, validated, adaptable and customizable and so easy to use. It can be up and can run in a less time with very less training.
