KTG Gravel pump centrifugal Gravel pump slurry pump price [industrial pump manufacturers](#)

Performance

D: 100-800mm

Q: 80-10000m³/h

H: 5-90m

Application and Feature

The product is a [cantilever and centrifugal pump](#). Single pump casing structure with cassette connection, has good wear resistance, corrosion resistance and high reliability. The product is reasonable in structure, reliable in operation and long in-service life. It is especially suitable for continuous transportation of strong abrasive materials due to too large particles to be conveyed by general slurry pumps.

[Centrifugal gravel pump](#) is one of our main product. Single pump casing structure with cassette connection, has good wear resistance, corrosion resistance and high reliability. If you need, welcome to contact us to know more.
